Welcome Address

David Ralph

Dear Colleagues,

On behalf of the European Society for Sexual Medicine (ESSM) and the Scandinavian Society for Sexual Medicine (SSSM), it is a great pleasure for us to welcome you all to the 17th Congress of the ESSM in Copenhagen, 2015.

Copenhagen was the host to a very successful ESSM Congress in 2005, and it is a true honor to celebrate the 10 year anniversary with a return to the Danish capital city.

Furthermore it is a privilege that during the 2015 congress it is the 20 year Anniversary celebration of the European Society for Sexual Medicine (ESSM). To celebrate this occasion we would like to invite all delegates to an anniversary reception after the opening ceremony. Remembering the past 20 years will also continue throughout the meeting.

Copenhagen is a pulsating metropolitan capital as well as a historical oasis, which is home to the oldest monarchy in the world. You can reach Copenhagen Airport on non-stop flights from more than 140 destinations.

The ESSM Congress will be hosted at the Bella Center. The goals of the Congress will be both to deliver optimal scientific and educational programs and to promote the field of Sexual Medicine. The content of the Congress will cover topics regarding all sexes and all sexual orientations as well as state-of-the-art educational opportunities. The most recent innovative research will be highlighted. To achieve this, the faculty will include both renowned experts and up-coming stars in our field. The Local Organizing Committee will strive to make the importance of the Congress evident to the public and to the scientific and health care authorities. This is crucial because of the obvious co dependence between the people who develop and the people who perform treatments. Finally, we wish to create more networking opportunities for especially young researchers and health care providers with an interest in Sexual Medicine.

If you have time to enjoy the city during the Congress, a thousand year history awaits you in museums and open historical buildings throughout the city. For those who are more interested in modern trends, Copenhagen is also one of the world's leading design capitals.

We look forward to welcoming you to Copenhagen and together we will build a great ESSM Congress for 2015!

ESSM LOCAL ORGANIZING COMMITTEE

Co-chairs	Mikkel Fode, Denmark Jens Sønksen, Denmark
Members	Stefan Arver, Sweden Torunn Bratvedt Larsen, Norway Annamaria Giralaldi, Denmark Petter Hedlund, Sweden Hans Jørgen Kirkeby, Denmark Ellids Kristensen, Denmark Lars Lund, Denmark Alexander Schultz, Norway Kerstin Sjögren Fugl-Meyer, Sweden Trygve Talseth, Norway

LOCAL ADVISORY BOARD

Christina Damsted Petersen, Denmark
Urban Ekström, Sweden
Astrid Højgaard, Denmark
Mats Holmberg, Sweden
Birgitta Hulter, Sweden
Knut Klem, Norway
Esben Esther Pirelli Benestad, Norway

THE ESSM MEETING AWARDS

The best presentations will be awarded with EUR 2.000 by the ESSM's Award Committee.

1. Prize for the best presentation on psychosexual, gender and sexology
2. Prize for the best presentation on FSD (clinical)
3. Prize for the best presentation on MSD (preclinical)
4. Prize for the best presentation on MSD (clinical)

Please note that the author of the presentation must be present during the congress in Copenhagen.

F1000 POSTER PRIZES

The 'Faculty of 1000' has offered three best poster prizes during the 17th ESSM Congress 2015 in Copenhagen for pre-clinical, male clinical and female clinical research.

The prizes will comprise of:

1. A year's personal subscription to F1000Prime – "any award winner is clearly somebody who takes their research seriously and has excelled in their work. In order to harness this enthusiasm, we provide them with their own personal access to F1000Prime recommendations so that they can keep up to date with the top articles in the literature, and help in supplementing ongoing projects."
2. A free submission to F1000Research – "we provide the winners with the opportunity to publish their work rapidly with no hassle, giving them quick priority on their work, and enabling everyone in the field to benefit from their work right away."
3. A 'Faculty of 1000' certificate – "because it's nice to have a hard copy of the achievement for the award winner's record and curriculum vitae".

F1000 is composed of 5,000 Faculty Members – senior scientists and leading experts in all areas of biology and medicine – plus their associates. The Faculty recommends the most important articles, rating them and providing short explanations for their selections. More info can be found at <http://f1000.com/>.

A jury of Selim Cellek, Johannes Bitzer and Markus Margreiter has been composed to select the F1000 posters during the congress.

ESSM Prizes and Awards

ESSM RESEARCH GRANTS

Every year ESSM awards up to EUR 30,000 each for 3 – 4 research projects with a maximum duration of 18 months. Research Grants are open to all ESSM members who fulfill the eligibility criteria. The application deadline, eligibility criteria and terms and conditions of the grants can be found at the ESSM website. We will be hearing from some of the previous grant holders in Copenhagen meeting about their exciting and ground breaking research during the ESSM grant session scheduled on 5 February 2015, 11:30 – 12:30.

ESSM BASIC SCIENTIST TRAVEL GRANTS

These grants which all members of ESSM are welcome to apply for (providing that they meet the eligibility criteria), are intended to support basic scientists wishing to attend the ESSM Annual Congresses. ESSM recognises that basic scientists who are not actively engaged in clinical work in sexual medicine field may have difficulty finding sponsors to attend ESSM Annual Congresses. ESSM therefore has awarded a free registration and EUR 500 travel expenses to ten of its members for attending the annual congress.

THE ESSM PRESTIGE AWARDS

The Executive Committee of ESSM decided to establish two awards to be presented during the annual meetings of the society:

The ESSM Career Award

This award will be presented to a senior scientist who has made an outstanding contribution in the field. The Executive and Scientific Committees have selected the award winner. The award winner will be presented during the Opening Ceremony.

The ESSM Award of Excellence

This award is presented annually to a physician or scientist under 40 years of age (either in basic sciences or clinical practice) who has made recent exceptional achievement in the field.

2015 Carla Costa, Portugal

CME ACCREDITATION

The **17th Congress of the European Society for Sexual Medicine** is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

The **17th Congress of the European Society for Sexual Medicine** is designated for a maximum of (or 'for up to') **18 hours** of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Programme of The Royal College of Physicians and Surgeons of Canada.

Participants interested in obtaining EACCME credits may contact the staff at the ESSM Booth in the exhibition Hall A1 on the last day of attendance in order to receive a printed copy of their accreditation certificate.

Structure of the Scientific Program

The scientific program is structured according to days. Per day it is structured by time and room. All presenters are listed by name and the title of their presentation

MASTER LECTURES

Master lectures of 30 minutes will be given by a distinguished and renowned expert and will be devoted to a specific topic of major interest.

ROUND TABLES

These sessions will usually last 90 minutes. Some of these sessions are scheduled for 60 minutes. They will focus on a particular topic and present the very latest data related to it. The round tables will include four or five papers and time for discussion.

WORKSHOPS – Lessons from the experts beyond the EBM (Evidence Based Medicine)

Workshops are designed for an interactive exchange of knowledge in the field of Sexual Medicine. During each workshop a short review of the accepted practice will be given following practical tips and tricks for the daily practice. The workshops will be conducted by a prominent, experienced speaker. The number of participants is limited, pre-registration is necessary. Hand-outs will be available online following to the respective workshop.

LIVE SURGERY

International experts will demonstrate cutting edge techniques and new tricks in a lively format. The surgery will be lively broadcasted from the Department of Urology of the Herlev Hospital, Copenhagen.

VIDEO SURGERY COURSE

The video surgery course will last 90 minutes, each video has a duration of 10 to 15 minutes. A panel of selected experts will present surgical videos showing different techniques and approaches and will discuss the details with the participants.

SYMPOSIA IN NATIONAL LANGUAGE

During the three congress days a dedicated room will be provided for symposia in national language by the National Affiliated Societies of the ESSM.

PODIUM SESSIONS

Podium sessions will present the best papers accepted for the congress and will focus on specific topics presenting the very latest findings in this field. Each session will last between 30 to 60 minutes. Presentations are limited to 4 minutes followed by 2 minutes of discussion.

HIGHLIGHTED POSTER TOURS

Authors were invited to submit abstracts on their latest research findings or important ongoing research. The highlighted poster tours were selected by the Scientific Committee based on a peer review of all abstract submissions. The most interesting posters are grouped by topic and presented in 30-minute moderated tours. Each tour will consist of a maximum of 7 posters in the same general field and will take place during the coffee breaks from Thursday to Saturday.

POSTER PRESENTATIONS

Authors were invited to submit abstracts on their latest research findings or important ongoing research as posters; these will be grouped into areas of research by the scientific committee. The poster exhibition in hall A1 is scheduled from Thursday, 5 to Saturday, 7 February 2015.

CASES THAT MATTER PRESENTATIONS

These presentations will present the accepted cases supported by an unrestricted educational grant. The purpose of the grant is to aid health care providers and researchers in the field in receiving clinically and scientifically current, accurate and relevant education in order to provide optimal care to patients. The presentations are disposed as posters in hall A1. The best 4 presentations have been selected for a 60-minute session, scheduled on Thursday, 5 February 2015.

INDUSTRY SPONSORED SESSIONS

Industry sponsored sessions organized by the industry in consultation with the scientific committee are considered for the congress days from Thursday to Saturday. These sessions are scheduled during the congress and will not interfere with the scientific program.

Scientific Program Schedule I Thursday, 5 February 2015

Room Time	Auditorium 15 (Room 1)	Auditorium 10/11 (Room 2)	Auditorium 12 (Room 3)	Room 18/19 (Room 4)	Foyer/Hall A1
08:30					Registration Counter 07:30 – 18:00
09:00	Congress Opening	PS-01 Penile disorders and penile surgery	WS-01 Premature ejaculation, delayed ejaculation and anejaculation	NS-01 Eurasian Andrology Summit – Update on male infertility (Turkish Society of Andrology)

004 Metoidioplasty: Alternative for sex reassignment surgery in female-to-male transsexuals. Evaluation of patients' satisfaction by a new questionnaire
Corinne Palamara, France
N. Morel Journal, A. Ruffion

005 Superficial excision of glans epithelium for penile cancer and covering with TachoSil®
Ralf Herwig, Austria
S. Sansalone

013 Sexual function after surgical treatment for penile cancer: Which organ sparing approach gives the best results?
Omid Sedigh, Italy
M. Falcone, C. Ceruti, M. Timpano, M. Falcone, F. Kuehhas, M. Preto, M. Sibona, B. Frea, L. Rolle

006 Personal experience using STAGE technique for congenital penile curvature
Luca Mavilla, Italy
R. U. Roman Urological Association

007 How to improve extracorporeal shock wave therapy in the management of patients with Peyronie's disease? Results from a randomized trial comparing plaque injection either with a saline solution or with a hydrocortisone solution
Maxime Sempels, Belgium
R. Andrianne, D. Waltregny, L. Coppens

008 Does early insertion of a malleable prosthesis still allow later upsizing of cylinders in patients with ischemic priapism?
Evangelos Zacharakis, United Kingdom
F. Deluca, A. Raheem, G. Garaffa, A. Muneer, D. Ralph

009 Implant of an intracorporeal phantom in order to prevent penile shortening after penile prosthesis removal due to prosthetic device infection or distal urethral erosion
Nicolas Morel-Journel, France
J. E. Terrier, A. Simonato, A. Ruffion, M. Ennas

010 Penile lengthening and widening without graft according to a modified sliding technique
Franklin Kuehhas, Austria
P. Egidio

WS-01 WORKSHOP**08:30–10:00 W Auditorium 12**

Premature ejaculation, delayed ejaculation and anejaculation

Expert: Marcel D. Waldinger, The Netherlands
Chair: Ege Can Serefoglu, Turkey

Scientific Program I Thursday, 5 February 2015

RT-01 ROUND TABLE**08:45–10:00 Auditorium 15**

Populations studies in sexual dysfunction

Chairs: Ian Eardley, United Kingdom
Antoine Faix, France**001 NATSAL: Changes in sexual attitudes and life-styles over time**

Kaye Wellings, United Kingdom

002 SEXPERT: Sexual health and dysfunctions in 2015

Els Elaut, Belgium

003 EMAS: Sexual function and attitudes in the aging male

Giovanni Corona, Italy

004 Sexual dysfunction in patients with chronic diseases

Ellids Kristensen, Denmark

NS-01 NATIONAL SYMPOSIUM**09:00–12:00 Room 18/19**

Eurasian andrology summit: Update on male infertility – section I

Organizers: Ates Kadioglu, Turkey
Selahittin Cayan, Turkey

Chair: David Ralph, United Kingdom

001 Robotic assisted andrological surgery: An update
Ahmet Gökçe, Turkey**002 m-TESE: Current strategies to improve sperm harvesting**

Ates Kadioglu, Turkey

003 Success of epididymovasostomy: Comparison of different microsurgical techniques

Natalio Cruz, Spain

004 Approach to the patients with Klinefelter Syndrome from adolescent to reproductive age

Raj Nigam, United Kingdom

Eurasian andrology summit: Update on male infertility – section II

Chairs: Natalio Cruz, Spain
Zsolt Kopa, Hungary
Pepe Cardoso, Portugal
Ilham Ahmadov, Azerbaidshan**001 Adolescent varicocele: An update**
Selahittin Cayan, Turkey**002 Male genital infections current diagnosis and treatment modalities**

Zsolt Kopa, Hungary

003 Genetics and epigenetics concern of the patients undergoing ICSI

Pedro Vendeira, Portugal

004 Male reproductive dysfunctions and co-morbidities (metabolic syndrome, obesity, cancer)

Giovanni Corona, Italy

English language only

10:00–10:30

BREAK

HP-01 HIGHLIGHTED POSTER TOUR**10:00–10:30****Hall A1**

Female sexual dysfunction

Chairs: Torunn Bratvedt Larsen, Norway
Mijal Luria, Israel**001 Female sexual function of brazilian overweight pregnant women**Meireluci Ribeiro, Brazil
M. Nakamura, M. R. Torloni, M. Scanavino,
R. Mattar**002 The variability of coital orgasm in a sample of Italian women**Roberto Bernorio, Italy
G. Polloni, G. Mori, A. Prunas, S. Di Santo**003 Treatment of female arousal and orgasmic complaints in a female cancer population treated with Zestra®: A topical applied blend of botanical oils**Michael Krychman, USA
B. Damaj, M. Hachicha, S. Kellogg**004 The influence of breast reconstruction on sexual well-being after prophylactic mastectomy from the patients perspective: Analyses of depth interviews for improving health care**Rieky Dikmans, Netherlands
R. Zwinkels, M.-B. Bouman, M. Mullender**005 Effects of low frequency bullet vibrators on the clitoral orgasm and sexual lives of Turkish women**Umit Sayin, Turkey
A. Kocaturk, T. Arisal, I. Dedecan, M. Arisal**006 How do people feel about self-masturbation? Findings from a real-life survey in outpatients**Alessandro Serino, Italy
E. Ventimiglia, P. Capogrosso, L. Boeri, G. La Croce, A. Pecoraro, M. Paciotti, I. Camozzi, M. Salonia, F. Montorsi, A. Salonia, G. La Croce**007 Some socio-cultural aspects of etiology, prevalence and treatment of vaginismus in Georgia**
Zurab Marshania, Georgian

Thursday, 5 February 2015 | Scientific Program

HP-02 HIGHLIGHTED POSTER TOUR**10:00–10:30 Hall A1**

Pre-clinical perspectives

Chairs: Alexander Müller, Switzerland
Anthony J. Bella, Canada

- 001 Expression and distribution of key mediators of the cyclic GMP pathway in the human clitoris - relation to the phosphodiesterase type 5 (PDE5)**
Stefan Ückert, Germany
M. Oelke, M. Kuczyk, K. Albrecht, P. Hedlund
- 002 Expression and distribution of cannabinoid receptors in the human seminal vesicles**
Stefan Ückert, Germany
G. la Croce, A. Bettiga, F. Montorsi, M. Kuczyk, P. Hedlund
- 003 Estrogen mediates metabolic syndrome-induced erectile dysfunction: A study in the rabbit**
Linda Vignozzi, Italy
S. Filippi, P. Comeglio, I. Cellai, A. Morelli, M. Maggi
- 004 Increased vulnerability of corpus cavernosum to aging-induced endothelial dysfunction in rats**
Mariam El Assar, Spain
A. Fernández, A. Sánchez-Ferrer, S. Gabancho, J. M. Sánchez-Puelles, L. Rodríguez-Mañas, J. Angulo
- 005 A novel dopamine reuptake inhibitor, NS18313 induces spontaneous erections in rats**
Simon Comerma Steffensen, Denmark
A. Kun, D. Peters, G. Munro, U. Simonsen
- 006 The treatment of pomegranate juice restored erectile dysfunction in diabetic rats**
Didem Yilmaz, Turkey
S. Gur, E. Onal, T. Bastaskin, E. Kaya, D. Yilmaz

HP-03 HIGHLIGHTED POSTER TOUR**10:00–10:30 Hall A1**

Genital reconstructive surgery

Chairs: Muammer Kendirci, Turkey
Mark-Bram Bouman, The Netherlands

- 001 10 years single center experience in male to female sex reassignment surgery**
Alessandro Franceschelli, Italy
G. Gentile, F. Colombo
- 002 Erectile function in men with failed hypospadias repair**
Chris Gonzalez, Italy
S. Sansalone, V. Iacovelli, G. Barbagli, G. Romano, G. Vespasiani, C. Loreto

- 003 Sigmoid vaginoplasty and its impact on psycho-social and sexual life in patients with vaginal agenesis**

Vladimir Kojovic, Serbia
M. Bizic, M. Majstorovic, B. Stojanovic,
L. Labus, D. Stanojevic, M. Djordjevic

- 004 Patient reported outcomes for metoidioplasty**
Franklin Kuehhas, Austria
F. De Luca, M. Spilotros, S. Richardson, G. Garaffa, D. Ralph, N. Christopher
- 005 Buried penis in adults: Presentation, surgical techniques and outcome**
Tet Yap, United Kingdom
M. Chocolaty, F. Spitaleri, A. Raheema, N. Christopher, G. Garaffa, S. Minhas, D. Ralph
- 006 Our experience of nontransecting anastomotic bulbar urethroplasty**
Badri Gvasalia, Russia
B. Gvasalia, A. Kochetov, R. Abramov, V. Parshin, A. Borshevetskiy, S. Roslik
- 007 Deviation of the erect straight penis**
Osama Shaeer, Egypt

WS-02 WORKSHOP**10:00–11:00 W Auditorium 12**

Erectile dysfunction: Difficult cases

Expert: Dimitris Hatzichristou, Greece

Chair: Ilan Efraim Gruenwald, Israel

ML-01 MASTER LECTURE**10:30–11:00 Auditorium 15**

Mindfulness interventions for treating sexual dysfunction: The science of finding focus in a multitask world

Chair: Marieke Dewitte, Belgium

Speaker: Lori Anne Brotto, Canada

RT-02 ROUND TABLE**11:00–12:15 Auditorium 15**

ESSM-SMSNA friendship session: Penile rehabilitation: The fall of a myth?

Chairs: Anthony J. Bella, Canada
Lawrence Scott Hakim, USA

- 001 Announcement of a new SMSNA and ESSM short visit grant**
Selim Cellek, United Kingdom

Scientific Program I Thursday, 5 February 2015

- 002** **Announcement of a new SMSNA and ESSM short visit grant**
Trinity Bivalacqua, USA
- 003** **Pathophysiology of erectile dysfunction after nerve sparing radical prostatectomy: When does it become irreversible?**
Trinity Bivalacqua, USA
- 004** **Penile rehabilitation: What the clinical evidence tells us**
John P. Mulhall, USA
- 005** **Discrepancies between clinical and basic science studies: It is time to stop, think and start again**
Fabio Castiglione, Italy
- 006** **The future is now: Upcoming treatment targets for cavernous nerve injury induced ED**
Emmanuel Weyne, Belgium

- 003** **The role of epigenetic factors in development and maintenance of female sexual problems**
Myriam Leupin, Switzerland
- 004** **Low-intensity extracorporeal shockwaves for ED: How does it work?**
Delphine Behr-Roussel, France
- 005** **New ESSM grant schemes and tips for applications**
Selim Cellek, United Kingdom

12:30–13:30

BREAK

SA-01 INDUSTRY SPONSORED SYMPOSIUM

WS-03 WORKSHOP11:00–12:00 **W** Auditorium 12

Genital surgery – how to avoid complications

Expert: David Ralph, United Kingdom

Chair: Fabrizio Palumbo, Italy

- 001** **Peyronie's surgery. Indications, expectations and consent. Complication prevention – shortening, recurrent curvature, ED, foreskin issues, sutures**
Giulio Garaffa, United Kingdom
- 002** **Penile prosthesis. Indications, expectations and consent. Complication prevention – infection, erosion, positioning, revision surgery, deformities**
Fabrizio Palumbo, Italy
- 003** **Penile reconstruction. Complication prevention in – augmentation surgery, skin grafting, circumcision**
David Ralph, United Kingdom

ESSM-01 ESSM SESSION

11:15–12:30 Auditorium 10/11

ESSM Research Grants: Reports from previous winners & and new funding opportunities

Chair: Selim Cellek, United Kingdom

- 001** **Metformin increases adenosine signalling in corpora cavernosa: An experimental study in an animal model of metabolic syndrome**
Linda Vignozzi, Italy
- 002** **Modulation of adrenergic system as a novel strategy for the treatment of ED induced by cavernous nerve injury**
Javier Angulo, Spain

NS-02 NATIONAL SYMPOSIUM

12:30–15:30

Room 18/19

Update in andrology and sexology: SIA (Società Italiana di Andrologia) and FISS (Italian Federation of Scientific Sexology)

Introduction

Carlo Bettocchi, Italy

Giamo Franco, Italy

Roberta Rossi, Italy

Chirurgia andrologica e sessuologia clinica

Discussant: Giorgio Del Noco, Italy

Moderators: Giamo Franco, Italy

Roberta Rossi, Italy

Il registro interno dei sessuologi FISS

Adele Fabrizi, Italy

Registro SIA implantologia protesica peniena

Edoardo Pescatori, Italy

Discussione

La valutazione olistica del Paziente nella chirurgia andrologica

Il chirurgo, oltre la tecnica

Fulvio Colombo, Italy

Il sessuologo ed il counselling sessuale

Elena Vittoria Longhi, Italy

VS-01 INDUSTRY SPONSORED VIDEO SESSION

13:30–15:30 Auditorium 15

see page 53

RT-03 ROUND TABLE

13:30–15:00 Auditorium 10/11

Novel approaches to psychotherapy – EFS and ESSM interactive symposium

Chairs: Salvatore Caruso, Italy
Paraskevi-Sofia Kirana, Greece

001 EFS/ESSM: Contemporary psychosexology: Re-examining the biopsychosocial model
Francesca Tripodi, Italy

002 EFS: Cognitive behaviour interventions for sexual dysfunction
Pedro Nobre, Portugal

003 ESSM: Impact of mindfulness interventions on sexual arousal
Marieke Dewitte, Belgium

004 EFS: E-health: Cost-efficacy and usefulness in the sexology practice
Kevan Wylie, United Kingdom

ESSM-02 ESSM SESSION

13:30–15:30 Auditorium 12

Resident's corner

Chair: Mikkel Fode, Denmark

001 ESRU: Sexual function after testicular cancer
Christian Ruf, Germany

002 ENTOG: Sexual medicine during training in obstetrics and gynaecology across Europe
Anna Aabakke, Denmark

003 EFPT: Sexual health in the psychiatry training across Europe
Mariana Pinto da Costa, Portugal

004 EYES: Working together for andrology: Implementing the novel curriculum for andrology
Gesthimani Mintziori, Greece

005 Lack of orgasm in a postmenopausal woman
Sarah Wåhlin-Jacobsen, Denmark

006 Adding life to years and not just years to life: Cancer and sexuality
Yacov Reisman, The Netherlands

RT-04 ROUND TABLE

15:00–16:00 Auditorium 10/11

Female genital disorders and sexual health

Chairs: Astrid Højgaard, Denmark
Lior Lowenstein, Israel

001 Vulvodynia and vaginismus: Similarities and differences and why they belong together?
Mijal Luria, Israel

002 Impact of contraceptives on female sexuality, genital arousal and vulvodynia
Johannes Bitzer, Switzerland

003 Persistent genital arousal is it a subtype of vulvodynia?
Atef R. Markos, United Kingdom

004 Treatment modalities for sexual pain disorders
Christina Damsted Petersen, Denmark

C. Dadone, M. Falcone, F. Kuehhas, L. Rolle

004 Plaque surgery with insertion of malleable penile prosthesis for severe Peyronies disease – real length improvement

Evangelos Zacharakis, United Kingdom

M. Shabbir, G. Garaffa, F. Deluca, A. Raheem,

D. J. Ralph

005 Long-term outcomes of grafting procedure using autovein in patients with Peyronies disease

Badri Gvasalia, Russia

B. Gvasalia, A. Kochetov, V. Parshin,

R. Abramov, A. Borshevetskiy

006 Functional evaluation after a surgery for penile curvature: A retrospective cohort study of 58 patients

Arnaud Baldini, France

P. Paparel, A. Ruffion, N. Morel-Journal,

N. Morel-Journal

007 Penile prosthesis and albuginea incision is an easy and valuable option in Peyronies disease

Carlo Luigi Augusto Negro, Italy

M. Paradiso, A. Rocca, F. Bardari

HP-06 HIGHLIGHTED POSTER TOUR**15:30–16:00 Hall A1**

Surgical treatment of male sexual dysfunction

Chairs: Trygve Talseth, Norway

Trinity Bivalacqua, USA

001 Penile implants act as a tissue expander and may lead to an increase in penile length and girth

Amr Mohamed Abdel Raheem Mohamed, United Kingdom

F. De Luca, M. Spilitros, G. Garaffa, A. Mu-neer, S. Minhas, N. Christopher, D. Ralph, S. Larsen

002 Our experience of penile augmentation with simultaneous penile implantation in patients with erectile dysfunction and penile dysmorphophobia

Maksym Romaniuk, Ukraine

O. Korniyenko, I. Gorpynchenko, J. Gurzhenko, M. Lysenko

003 No touch technique & Rifampicin reduce infection risk in penile prosthetic surgery

Nabeel Kuwajjo, Ireland

P. Hegarty, H. Hegarty, N. Hegarty, K. O'Malley

004 Anatomical study on ectopic placement of a cloverleaf reservoir in coloplast penile implants supported by the clinical outcome

Danar Osmonov, Germany

S. K. Wilson, C. M. Naumann, T. Wedel,

J. Sievers, K. P. Juenemann

005 Introducing the first registry for penile implants: The INSIST-ED REGISTRY (Italian Nationwide Inventarisation of Surgical Treatment for ED)

Edoardo Pescatori, Italy

G. Franco

006 Satisfaction after 2 pieces penile prosthesis implant: A multi-institutional Italian study

Alessandro Franceschelli, Italy

G. Gentile, P. Massenio, A. Tuccio, S. Barbieri,

L. Di Venuto, A. Natali, A. Vitarelli, L. Cormio,

F. Colombo

Scientific Program I Friday, 6 February 2015

RT-16 INDUSTRY SPONSORED ROUND TABLE**16:00–17:15 Auditorium 15**

see page 54

RT-09 ROUND TABLE**16:00–17:15 Auditorium 10/11**

Is there a future for medical therapy of Peyronie's disease?

Chairs: Fulvio Colombo, Italy
Ilan Efraim Gruenwald, Israel**001 Pathophysiology of Peyronie's disease: How can we easily identify new treatment targets?**
William Stebbeds, United Kingdom**002 Mechanisms of penile fibrosis and the potential of NO/cGMP pathway modulation in Peyronie's disease**
Nestor Gonzalez-Cadavid, USA**003 Oral therapy for Peyronie's disease: What we should prescribe and what we should not prescribe. That's the question!!**
Hartmut Porst, Germany**004 Local and intralesional therapy for Peyronie's disease is a mainstay in the future**
Anthony J. Bella, Canada**RT-10 ROUND TABLE****16:00–17:15 Auditorium 12**

Neurotransmitters, mood regulation and sexual behavior

Chairs: Kerstin Fugl-Meyer, Sweden
Marcel D. Waldinger, The Netherlands**001 Neurotransmitters in female sexual function and dysfunction**
Tillmann Krüger, Germany**002 Mood, psychotic disorders and sleep disorders – how do they affect sexuality?**
Michael Lew Starowicz, Poland**003 Psychopharmacology and sexual function – good or bad?**
Annamaria Giraldo, Denmark**ESSM ANNUAL BUSINESS MEETING****17:30–18:30 Auditorium 15**

– for members only –

Saturday, 7 February 2015 | Scientific Program

VS-02 VIDEO SESSION**08:30–10:00 Auditorium 15**

Complex reconstructive and plastic genital surgery

Chairs: Giulio Garaffa, United Kingdom
Nicolas Morel-Journel, France

- 001 Ileal vaginoplasty: Tips, tricks and pitfalls**
Mark-Bram Bouman, The Netherlands
- 002 Why do so many women think their vulva is abnormal and what can we correct? Composite reduction labiaplasty: Indications and technique**
Mujde Ozer, The Netherlands
- 003 Penoplasty in the genetic male; tips, tricks and pitfalls**
Giulio Garaffa, United Kingdom
- 004 Female genital mutilation, how to treat, how to reconstruct? (illustrated presentation)**
Beatrice Cuzin, France
- 005 Complex genitalia reconstruction for acute and rare case of penile pyoderma gangrenosum**
Omid Sedigh, Italy
- 006 Reconstruction of penile injuries**
Miroslav Djordjevic, Serbia

PS-08 PODIUM SESSION**08:30–09:00 Auditorium 12**

Late breaking abstracts in basic and clinical male sexual dysfunction research

Chairs: Paolo Capogrosso, Italy
Selim Cellek, United Kingdom

- 001 Low-energy linear extracorporeal shock wave therapy for erectile dysfunction**
Grzegorz Fojecki, Denmark
S. Tiessen, P. Ooster
- 002 Does still is a place for paroxetine in the era of dapoxetine**
Aleksander Khelaia, Georgian
- 003 Although nitrgic function is profoundly impaired, the endothelial function is preserved in the corpus cavernosum and penile resistance arteries of men after radical prostatectomy**
Juan Ignacio Martinez-Salamanca, Spain
J. M. La Fuente, A. Fernández, E. Martínez-Salamanca, A. J. Pepe-Cardoso, J. Carbalido, J. Angulo

RT-11 ROUND TABLE**08:30–10:00 Auditorium 10/11**

Testosterone substitution and male sexual health

Chairs: Eduardo Garcia-Cruz, Spain
Zdravko Asenov Kamenov, Bulgaria

- 001 Testosterone and sexual function, what's the physiological connection?**
Stefan Arver, Sweden
- 002 PRO: Clinical evidence (male sexual health)**
Mario Maggi, Italy
- 003 CON: Clinical evidence (male sexual health)**
Geoffrey Hackett, United Kingdom
- 004 Does T supplementation increase PDE5-inhibitor responses in difficult-to-treat ED patients?**
Antonio Aversa, Italy

NS-06 NATIONAL SYMPOSIUM**08:30–12:30 Room 18/19**

ASESA– Asociación Española de Andrología/ SPA– Sociedad Portuguesa de Andrologia

Chairs: Pepe Cardoso, Portugal
Rafael Prieto, Spain**Síndrome post-finasteride: Realidad o ficción**

Eduardo Garcia-Cruz, Spain

Manejo de la eyaculación retardada

Bruno Pereira, Portugal

VasectomíaChairs: Pepe Cardoso, Portugal
Ana María Puigvert Martínez, Spain**Técnica quirúrgica**

Jose Viladoms, Spain

Manejo de las complicaciones

Ignacio Sola, Spain

Reversion

Vitor Oliveira, Portugal

Deficit de testosterona: Novedades en 2015

Nuno Louro, Portugal

Disfunción érectil: Novedades en 2015

Asier Leibar, Spain

Enfermedad de Peyronie: Novedades en 2015

Joaquín Sarquella, Spain

Spanish language only

Scientific Program I Saturday, 7 February 2015

Cirugia protésica

Chairs: Pedro Vendeira, Portugal
Natalio Cruz, Spain

Manejo de la infección

Javier Romero Otero, Spain

Implante doble: EUA o Sling

Augustin Fraile, Spain

Mejorar la satisfacción

Nuno Tomada, Portugal

Rehabilitación vs tratamiento de la DE tras prostatectomía radical

Juan Ignacio Martínez-Salamanca, Spain

WS-06

WORKSHOP

09:00–10:00

W Auditorium 12

Vulvodynia, vestibulodynia and sexual pain disorders (diagnosis, examination and treatment)

Expert: Johannes Bitzer, Switzerland

Chair: Lior Lowenstein, Israel

10:00–10:30

BREAK

HP-07

HIGHLIGHTED POSTER TOUR

10:00–10:30

Hall A1

Ejaculatory disorders

Chairs: Marcel D. Waldinger, The Netherlands
Emmanuele A. Jannini, Italy

001 Current smoking is associated with lower seminal vesicles and ejaculate volume, despite higher testosterone levels, in male subjects of infertile couples

Francesco Lotti, Italy
G. Corona, P. Vitale, E. Maseroli, M. Rossi,
M. G. Fino, M. Maggi

003 Voiding phase luts negatively impacts ejaculatory function – results of a psychometric study in men seeking medical attention for premature ejaculation

Eugenio Ventimiglia, Italy
P. Capogrosso, A. Serino, L. Boeri, G. La
Croce, G. Castagna, A. Pecoraro, M. Paciotti,
R. Scano, F. Montorsi, A. Salonia

004 Characteristics of patients attending sex-therapist physicians for premature ejaculation in France

Marie Helene Colson, France
S. Droupy, P. Maigret, P. Costa

005 Blood prostate specific antigen can predict erectil and ejaculation dysfunction

Göksel Bayar, Turkey
M. Aydin, M. Kendirci

006 Pelvic floor muscle rehabilitation for patients with lifelong premature ejaculation: A novel therapeutic approach

Antonio Luigi Pastore, Italy
G. Palleschi, L. Silvestri, A. Fuschi,
C. Maggioni, A. Carbone

007 Presentation and treatment outcome of ejaculatory duct obstruction (EDO)

Amr Mohamed Abdel Raheem Mohamed,
United Kingdom
F. De Luca, M. Spilitros, G. Garaffa,
S. Minhas, N. Christopher, A. Muneer,
D. Ralph, C. Ying-Li

HP-08

HIGHLIGHTED POSTER TOUR

10:00–10:30

Hall A1

Risk factors and medical management I

Chairs: Paolo Verze, Italy
Hans Joergen Kirkeby, Denmark

001 Early effect of bariatric surgery on urogenital function in morbidly obese male patients: Preliminary observations

Maha Aleid, United Kingdom
S. Celtek, A. Muneer, M. Hashemi, J. George,
S. Renshaw

002 One out of ten patients submitted to radical prostatectomy complains of postoperative painful orgasm

Paolo Capogrosso, Italy
A. Serino, E. Ventimiglia, L. Boeri, G. La
Croce, A. Pecoraro, M. Paciotti, G. Gandaglia,
A. Briganti, F. Montorsi, A. Salonia, A. Serino

003 Tailoring to the patient with erectile dysfunction – baseline clinical characteristics are of major importance to predict positive treatment outcomes

Paolo Capogrosso, Italy
E. Ventimiglia, A. Serino, L. Boeri, G. La
Croce, M. Paciotti, R. Scano, R. Damiano,
F. Montorsi, A. Salonia

004 The recovery of sexual function in patients with vasculogenic erectile dysfunction

Maksym Romaniuk, Ukraine

005 New treatment for erectile dysfunction using a nutraceutical compound (Tradamina®). A randomized, double-blinded, placebo controlled study on 92 patients

Nikola Stanojevic, Serbia
V. Pesic, M. Tanasic

Saturday, 7 February 2015 | Scientific Program

- 006** **Statin treatment in erectile dysfunction patients with obesity and hypercholesterolemia**
Inês Tomada, Portugal
[N. Tomada](#)
- 007** **Evaluation of radial extracorporeal shock wave therapy in the treatment of erectile dysfunction**
Pavel Pokorny, Czech Republic
P. Turcan, P. Pokorny, M. Prochazka, J. Prochazkova
- 008** **Hypogonadal men with pre-existing cardiovascular disease (CVD) show improved erectile function on long-term treatment with testosterone undecanoate injections**
Farid Saad, Germany
G. Doros, A. Haider, A. Traish

HP-09 HIGHLIGHTED POSTER TOUR**10:00–10:30 Hall A1**

Hormones and male sexual health

Chairs: Ilpo Huhtaneimi, Finland
Mats Holmberg, Sweden

- 001** **Low testosterone syndrome protects subjects with high cardiovascular risk burden from major adverse cardiovascular events**
Elisa Maseroli, Italy
[G. Corona](#), G. Rastrelli, A. Sforza, G. Forti, E. Mannucci, M. Maggi, N. Fralassi
- 002** **Low testosterone and high pulse pressure are complementary predictors of cardiovascular events in erectile dysfunction patients**
Nikolaos Ioakeimidis, Greece
C. Vlachopoulos, K. Rokkas, A. Aggelis, M. Abdelrasoul, Z. Kratiras, C. Fassoulakis, A. Rempelakos, D. Tousoulis
- 003** **Erectile dysfunction correlates with MetS in men with moderate prostatic symptoms**
Eduard García Cruz, Spain
J. I. Martínez-Salamanca, J. Romero Otero
- 004** **Gynecomastia in subjects with sexual dysfunction**
Elisa Maseroli, Italy
G. Rastrelli, G. Corona, V. Boddi, A. M. Letizia Amato, E. Mannucci, G. Forti, M. Maggi
- 005** **Erectile dysfunction and aging symptoms are related to a higher Charlson Comorbidity Index**
Eduard García Cruz, Spain
J. I. Martínez-Salamanca, R. Javier
- 006** **Temporary withdrawal of testosterone treatment in morbidly obese hypogonadal men a series of case reports**
Farid Saad, Germany
A. Yassin, A. Traish

- 007** **Testosterone level predicts outcome of phosphodiesterase-5 inhibitor treatment**
Christopher Ho, Malaysia
A. Akhavanmalyeri, M. H. Jasman, G. H. Tan, P. Singam, E. H. Goh, B. Bahadzor, Z. Zainuddin

ML-06 MASTER LECTURE**10:30–11:00 Auditorium 15**

ESSM: Two decades of research in sexual medicine – what has been translated from basic science to the patient?

Chair: Javier Angulo, Spain

Speaker: Petter Hedlund, Sweden

WS-07 WORKSHOP**11:00–12:00 W Auditorium 12**

How to improve patient satisfaction and compliance

Expert: John Dean, United Kingdom

Chair: Paraskevi-Sofia Kirana, Greece

RT-12 ROUND TABLE**11:00–12:30 Auditorium 15**

Are male factor infertility and male sexual dysfunction linked?

Chairs: Jens Sønksen, Denmark
Dana Ohl, USA

- 001** **Environmental factors: A shared etiological factor in infertility and sexual dysfunction?**
Raanan Tal, Israel
- 002** **Psychological impact of male factor infertility and the influence on masculinity and male sexual function**
Zsolt Kopa, Hungary
- 003** **Effects of infertility and infertility treatment on male sexual function**
Francesco Lotti, Italy
- 004** **Benefits and risks of hormonal treatment in infertile males**
Selahittin Cayan, Turkey

Scientific Program I Saturday, 7 February 2015

PS-05 PODIUM SESSION**11:00–12:30 Auditorium 10/11**

Sexual diversity and gender dysphoria

Chairs: Esben Esther Pirelli Benestad, Norway
Timo O. Nieder, Germany**001 Body uneasiness and eating disorders symptoms in gender dysphoria individuals**Alessandra Daphne Fisher, Italy
G. Castellini, H. Casale, E. Fanni, I. Lasagni,
L. Benni, V. Ricca, M. Maggi**002 Time needed for cross-sex hormonal treatment to induce physical changes as well as to improve gender dysphoria in MtF individuals**Alessandra Daphne Fisher, Italy
G. Castellini, E. Fanni, H. Casale, A. Amato,
V. Boddi, E. Maseroli, C. Meriggiola, V. Ricca,
M. Maggi**003 A network approach to body satisfaction in gender dysphoria**Tim van de Grift, The Netherlands
P. Cohen-Kettenis, G. DeCuyper, H. Richter-Appelt, I. Haraldsen, B. Kreukels**004 The gay men sex studies: Prevalence of infidelity and promiscuity among Belgian gay men**Johan Vansintejan, Belgium
J. Vandevoorde, D. Devroey**005 Endoscopic characteristics of the sigmoid-derived neovagina**Wouter van der Sluis, The Netherlands
J. Meijerink, L. Elfering, M. Mullender, N. de Boer, A. van Bodegraven, M.-B. Bouman**006 Psychosocial outcome and quality of sexual life after sex reassignment surgery: An Italian multicentric study**Antonio Prunas, Italy
D. Hartmann, M. Bini, E. Bandini, A. Fisher,
M. Maggi, V. Pace, O. Todarello, L. Quagliarella**007 An exploration of transgender identity through the Implicit Association Test (IAT)**Antonio Prunas, Italy
M. Bini, D. Hartmann**008 The global online sexuality survey (GOSS): Male homosexuality among Arabic-speaking internet users in the Middle East – 2010**

Osama Shaeer, Egypt

009 Is homosexuality viewed as a disease? The picture from a real-life sociological assessmentLuca Boeri, Italy
A. Serino, G. La Croce, E. Ventimiglia, I. Camozzi, M. Salonia, A. Pecoraro, M. Paciotti,
R. Damiano, F. Montorsi, A. Salonia**010 On hypersexual disorder-psychiatric co-morbidities, paraphilias and gender differences in women and men with self-identified hypersexual behavior**Katarina Görts Öberg, Sweden
J. Hallberg, C. Dhejne, S. Arver**PS-09 PODIUM SESSION****12:00–12:30 Auditorium 12**

Late breaking abstracts in female sexual dysfunction and psychosexual research

Chairs: Arik Shechter, Israel
Cecilia Dhejne, Sweden**001 Sexual patterns in drug-addicted women**Stefania Chiappini, Italy
T. Roberta, M. Di Paolo, G. Conte**002 Gender-related differences in the associations between sexual impulsivity and psychiatric disorders**Galit Erez, Israel
C. Pilver, M. Potenza**003 Relationship between desire, sexual attitudes and menstruation**Francisco Santamaria Cabello, Spain
F. J. Del Río Olvera, M. A. Cabello-García**12:30–13:30 BREAK****RT-13 ROUND TABLE****13:30–15:00 Auditorium 15**

Debate: Testosterone supplementation: Safe for the heart?

Chairs: Michael Zitzmann, Germany
Pedro Vendeira, Portugal**001 PRO: Testosterone administration is safe for the heart**

Abraham Morgentaler, USA

002 CON: Testosterone supplementation: Increased risk for cardiovascular events: What the data tells us

Ilpo Huhtaniemi, Finland

Interactive discussion

Saturday, 7 February 2015 | Scientific Program

Saturday, 7 February 2015 | Scientific Program

HP-10 HIGHLIGHTED POSTER TOUR**15:30–16:00 Hall A1**

ED risk factors and medical management II

Chairs: Juan Ignacio Martinez-Salamanca, Spain
Ferdinando Fusco, Italy

- 001 The expression of adenosine receptors in Peyronie's Disease**
Marta Mateus, United Kingdom
W. Stebbes, A. Raheem, M. Spilotros, G. Garrafa, A. Muneer, N. Christopher, S. Cellek, D. Ralph
- 002 Penile linear shock wave therapy for poor responders to prior erectile dysfunction therapy**
Vipan Bhatia, United Arab Emirates
- 004 Why do patients prefer daily over on demand tadalafil for erectile dysfunction**
Vipan Bhatia, United Arab Emirates
- 005 The interaction between male sexual function and female sexual satisfaction in patient treated with a combined therapy for erectile dysfunction**
Valentina Boddi, Italy
H. Casale, G. Rastrelli, A. D. Fisher, M. Maggi
- 006 Low-energy shock wave therapy—a new treatment for erectile dysfunction**
Maksym Romaniuk, Ukraine
P. Aksonov, I. Gorpynchenko
- 007 Sexual techniques in long term catheterised males by "Innovative couples" – amazing but true**
Sanjay Pandey, India

HP-11 HIGHLIGHTED POSTER TOUR**15:30–16:00 Hall A1**

Prostatic disease and male sexual health

Chairs: Giorgio Bozzini, Italy
Lars Lund, Denmark

- 001 Prospective evaluation of the early impact of the LHRH analogues in the treatment of prostate cancer in sexual, psycho-cognitive, emotional and quality of life parameters**
Lucía García González, Spain
J. Romero Otero, R. Sopena Sutil, E. Jiménez Alcaide, B. García Gómez, J. M. Duarte Ojeda, A. Rodríguez Antolín, J. Romero Otero
- 002 Nocturia has a detrimental impact on sexual function – findings from a real-life survey in a cohort of Caucasian-European men**
Luca Boeri, Italy
G. Castagna, P. Capogrosso, E. Ventimiglia, A. Serino, A. Pecoraro, M. Paciotti, R. Scano, F. Montorsi, A. Salonia

- 003 Relationship between extraplevis risk factors and lower urinary tract symptoms on older forty years age men**
Göksel Bayar, Turkey
M. Ötügen, M. Aydin, M. Kendirci
- 004 Combination therapy with triomen quattro and meloxicam in the treatment of lower urinary tract symptoms (LUTS) and prostate pain syndrome (PPS)**
Aleksander Khelaia, Georgian
L. Managadze
- 005 Sexual activity and erectile function in men undergoing androgen deprivation therapy**
Peter Østergren, Denmark
C. Kistorp, J. Sønksen, M. Fode
- 006 Erectile rehabilitation by sildenafil post radical prostatectomy and radical cystectomy. A prospective randomized study**
Mohamed Mourad Gargouri, Tunisia
Y. Ouanes, A. Sellami, Y. Ayari, Y. Nouira
- 007 Evaluation of erectile dysfunction management in primary care**
Simon Morton, United Kingdom
C. Jones, M. Fraser

RT-14 ROUND TABLE**16:00–17:30 Auditorium 15**

Incontinence and FSD

Chairs: Yoram Vardi, Israel
Juan M. Poyato Galan, Spain

- 001 Menopause and its impact on the pelvic floor: Sexual dysfunction, prolaps and incontinence**
Rossella E. Nappi, Italy
- 002 The link between urge urinary incontinence and sexual function and dysfunction in women**
Ian Milsom, Sweden
- 003 The impact of pelvic floor surgery on female sexual function**
Milou Bekker, The Netherlands
- 004 Pelvic floor physical therapy in FSD and urinary incontinence**
Anna Willans, United Kingdom

Scientific Program I Saturday, 7 February 2015

RT-15 ROUND TABLE**16:00–17:45 Auditorium 10/11**

Panel discussion: Sexual side-effects of BPH treatment: Practical implications and prevention

Chairs: Ferdinando Fusco, Italy
Hartmut Porst, Germany**001 Microvascular dysfunction as a common aetiology in ED and male LUTS**

Selim Celtek, United Kingdom

002 Medical treatment for BPH: PDE5-inhibitors

Matthias Oelke, Germany

003 Medical treatment for BPH: Alpha blockers

Wayne J. G. Hellstrom, USA

004 Medical treatment for BPH: 5-alpha reductase inhibitors

Onder Yaman, Turkey

005 Minimal invasive endoscopic management of BPH: Does it impact sexual function?

Christian Gratzke, Germany

006 Can we prevent retrograde ejaculation during endoscopic resection and evaporation of the prostate and bladder neck?

Saladin Alloussi, Germany

Poster Presentations

P-01 MALE SEXUAL DYSFUNCTION

- 001 Periurethral injection of human adipose tissue derived stem cells (hADSCs) prevents fibrosis in a new rat model of urethral stricture**
Fabio Castiglione, Italy
D. De Ridder, M. Albersen, S. Joniau, T. Bivalacqua, A. Russo, F. Benigni, F. Montorsi, P. Hedlund
- 002 Sexual arousal and sexual inhibition: Qualitative study on Italian men through focus group**
Davide Pappalardo, Italy
M. Panzeri
- 003 Attitudes, self-esteem and sexual dysfunctions: Prevalence and clinical features in a group of young adult male**
Jacopo Grisolaghi, Italy
R. S. Calabrò
- 004 Use of erectile dysfunction as a tool for early diagnosis of cardiovascular diseases**
Oleg Apolikhin, Russia
E. Efremov, S. Krasnyak
- 005 Penil severity scale can use to predict penil shortening**
Göksel Bayar, Turkey
M. Aydın, M. Kadihasanoglu, M. Kendirci
- 006 Evaluation of endothelial function by peripheral arterial tonometry in patients with erectile dysfunction**
Rui Duarte Abreu, Portugal
- 007 The correlation between 25-OH-vitamin D and erectile dysfunction (ED)**
Ion Dumbraveanu, Republic of Moldova
V. Ghenciu, B. Balutel
- 008 Modifiable risk factors for cardiovascular disease and erectile dysfunction – an analysis of the patients knowledge in men with ischaemic heart disease**
Dariusz Kalka, Poland
L. Karpinski, Z. Domagala, J. Gebala, W. Bek, L. Rusiecki, A. Grychowski, K. Jacyna, M. Rusiecka, W. Pilecki
- 009 The analysis of the influence of the presence of modifiable risk factors for cardiovascular disease on the cardiologists' interest in erectile dysfunction in patients with ischaemic heart disease**
Dariusz Kalka, Poland
Z. Domagala, L. Karpinski, J. Gebala, L. Rusiecki, A. Bielous-Wilk, E. Sylwina-Krauz, J. Dworak, W. Beck, W. Pilecki

- 010 An integral approach when facing age-related health problems in men: What should we focus on?**
Antonio Martin-Morales, Spain
R. Vozmediano Chicharro, V. Baena Gonzalez
- 011 Objectification and sexual dysfunctions in men**
Antonio Prunas, Italy
A. Dakanalis, R. Bernorio, G. Mori
- 012 A protocol of duplex ultrasound after cavernous injection of alprostadil**
Pablo Velilla, Spain
A. Puerta, D. Garcia-Escudero, P. Samper, A. Vilchez, J. P. Morga, J. Oñate, M. Torres, L.O. Fontana
- 013 Healthy diet versus smoking impact on erectile dysfunction patient's heart geometry and diastolic performance; the good the bad and the final countdown**
Konstantinos Konstantinidis, Greece
A. Angelis, N. Ioakimidis, K. Makarounis, K. Rokkas, P. Vrettas, M. Abdelrasoul, C. Fasoulakis, C. Vlachopoulos, D. Tousoulis
- 014 Vascular, cardiac and erectile dysfunction; the dangerous triad of atherosclerosis and the holistic contribution of the Mediterranean diet in the maintenance of cardiovascular health**
Konstantinos Rokkas, Greece
C. Vlachopoulos, A. Angelis, N. Ioakimidis, Z. Kratiras, P. Vrettas, F. Monpaient, K. Aggeli, K. Konstantinidis, D. Tousoulis
- 015 Additional tadalafil therapy in tamsulosin non-responders with LUTS/BPH**
Vipan Bhatia, United Arab Emirates
- 016 Drug treatment for ED and PE patients**
Bin Chen, China
T. Zhang, H. Wang, R. Chen, Y. Han, Y. Huang, Y. Huang
- 017 Injectable testosterone undecanoate for the treatment of hypogonadism**
Elisa Maseroli, Italy
G. Corona, M. Maggi
- 018 Determining factors of the regenerative capacity of the stromal vascular fraction**
Marlene Quaade, Denmark
C. H. Jensen, D. C. Andersen, S. P. Sheikh
- 019 Improvement and stabilization of erectile function, anthropometric and metabolic parameters in hypogonadal men with type 2 diabetes mellitus (T2DM) on long-term treatment with testosterone undecanoate injections**
Farid Saad, Germany
G. Doros, A. Haider, A. Traish

Poster Presentations

- 020 Multiple treatment modifications are independent of time since first prescription of a PDE5i results of real-life observational study**
Alessandro Serino, Italy
L. Boeri, P. Capogrosso, G. La Croce, E. Ventimiglia, A. Pecoraro, M. Paciotti, G. Castagna, R. Damiano, F. Montorsi, A. Salonia
- 021 Three-pieces inflatable penile prosthesis implantation with penoscrotal approach and scrotal septum sparing technique: Description and early experience**
Enrico Conti, Italy
F. Varvello, S. Lacquaniti, M. Camilli, J. Antolini, G. Fasolis
- 022 Venous leakage treatment revisited – pelvic veno-ablation using aethoxysclerol under air block technique and valsalva maneuver**
Ralf Herwig, Austria
S. Sansalone
- 024 Penile implants; new pump system: 100 cases, our experience**
Mariano Rosselló, Spain
P. Garcia Abad, M. Fernandez Arjona
- 025 Protective effects of oral supplementation with L-glutamine on irradiated prostate of rats**
Flavia Morone, Brazil
C. Gallo, F. Sampaio, D. Benchimol, W. Costa
- 026 Critical evaluation of Peyronie's disease (PD) treatment with plaque excision and grafting of the tunical defect with lyophilized bovine pericardium**
Borja Garcia Gomez, Spain
J. Romero Otero, J. Medina Polo, L. Garcia Gonzalez, E. Jimenez Alcaide, A. Rodriguez Antolin, J. Passas Martinez
- 027 Superficial tunica albiginea rupture as initial startpoint of Peyronie's disease a topic for interdisciplinary consideration**
Ralf Herwig, Austria
M. Bayerl
- 028 Post-surgical management of Peyronie's disease. How to prevent erectile dysfunction, penile shortening and curvature recurrence combining vacuum erection device therapy and Trдамixina®**
Nikola Stanojevic, Serbia
V. Pesic, M. Tanasic
- 029 Hormone levels and Peyronie's disease: More than testosterone deficiency?**
Mariana Santiago, Portugal
F. Botelho, I. Tomada
- 030 What bothers men about Peyronie's?**
Ross Vint, United Kingdom
A. Gibson, M. Fraser
- 031 The nesbit procedure for Peyronie's disease: Six year follow up**
Tet Yap, United Kingdom
A. Raheem, M. Spilotros, F. De Luca, G. Garaffa, N. Christopher, S. Minhas, D. Ralph
- 032 Our experience in penile fracture management**
Mohamed Mourad Gargouri, Tunisia
Y. Ayari, A. Sellami, M. A. Ben Chehida, S. Ben Rhouma, Y. Noura
- 033 Organ sparing surgery in penile cancer – our initial experience**
Sofia Lopes, Portugal
A. Silva, A. Furtado, M. Lourenço, P. Cardoso
- 034 Glansectomy and partial penectomy for penile cancer under local anaesthesia**
Shafiullah Wardak, United Kingdom
J. Rai, N. Anastasius, D. Summerton, J. Goddard
- 035 Surgical techniques and outcomes for squamous cell carcinoma of the urethra**
Tet Yap, United Kingdom
I. Cullen, N. Christopher, G. Garaffa, D. Ralph, S. Minhas
- 036 Reduction of enlarged labia minora as a functional and aesthetic procedure**
Marta Bizic, Serbia
M. Djordjevic, V. Kojovic, M. Majstorovic, B. Stojanovic
- 037 Consideration of female genital surgery and its correlates**
Verena Klein, Germany
- 038 Treatment of gland and penile reconstructive/esthetic surgery with polyacrylamide gel**
Mauricio Salas Sironvalle, Chile
A. Salas Vieyra
- 039 Sexual outcomes after partial penectomy for penile cancer: Results from a multiinstitutional study**
Salvatore Sansalone, Italy
M. Silvani, R. Leonardi, G. Vespasiani, V. Iacovelli
- 040 Penile fractures in a tertiary UK referral centre – the functional outcome**
Evangelos Zacharakis, United Kingdom
M. Shabbir, A. Raheem, G. Garaffa, N. Christopher, A. Muneer, D. Ralph

Poster Presentations

- 041 Impact of treatments for lower urinary tract symptoms/benign prostatic hyperplasia on ejaculation**
Kim Drasa, Albania
E. Dani
- 042 Does still is a place for paroxetine in the era of dapoxetine**
Aleksander Khelaia, Georgian
L. Managadze, Z. Marshania
- 043 Hemiscrotal orgasmic pain treated by phosphodiesterase 5 inhibition**
Nabeel Kuwaijo, Ireland
P. Hegarty, H. Hegarty, N. Hegarty, K. O'Malley
- 044 Anejaculatory orgasm: Dilemmas in management**
Sanjay Pandey, India
- 045 Paroxetine treatment does not effect testicular histology in rats**
Ege Can Serefoglu, Turkey
A. Gul, S. Altinay, D. S. Celik, A. Colakerol, E. Yuruk
- 046 Evaluation of the fertility status of patients with lifelong premature ejaculation who were admitted to urology outpatient clinic**
Ege Can Serefoglu, Turkey
A. Colakerol, S. Calhan, E. Yuruk, M. Dincer
- 047 Sensate focus exercise in newly-married men who ejaculates before intercourse**
Hongxiang Wang, China

Workshops

5 February 2015

WS-01**WORKSHOP****08:30–10:00****Auditorium 12**

Premature ejaculation, delayed ejaculation and anejaculation

Expert: Marcel Waldinger, The Netherlands

Chair: Ege Can Serefoglu, Turkey

Audience: The workshop has been designed for clinicians who treat men with complaints of premature ejaculation, delayed ejaculation and/or anejaculation.

The contents include three parts of each dysfunction:

1. The symptomatology of the disorder
2. The options for treatment
3. A number of clinical cases. Apart from application of evidence-based medicine proposed guidelines, the workshop will show that clinical experience is an important factor in diagnosis and treatment of these ejaculatory complaints, and that recommendations of guidelines may not always lead to disappearance of the complaint.

Aim: In daily clinical practice, a substantial number of patients do not present with textbook-like ejaculatory complaints. There might be comorbidity, patients may provide only minimal information of their complaints, or present with complaints that are related to non-ejaculatory disorders. In an interactive session, the audience will learn that a critical view towards official diagnostic criteria and treatment standards is a requirement for daily clinical practice with patients suffering from ejaculatory disorders.

Learning objectives

- ▶ To learn the subtle clinical symptoms of the four different premature ejaculation subtypes
- ▶ To learn the symptoms of primary and secondary delayed ejaculation and anejaculation
- ▶ To learn to differentiate between ejaculation-induced erectile dysfunction and other erectile disorders
- ▶ To learn how to deal with medication induced side effects
- ▶ To learn how to deal with non-responders

Summary of contents

There are four premature ejaculation subtypes, each with its own characteristic symptomatology. In addition, there are two types of delayed ejaculation, the well-known lifelong an acquired form. Although textbooks describe their symptoms, subtle characteristics have hardly been described as these subtle symptoms are often difficult to objectivate. Nevertheless, it are these subtle nuances that are important for a clinician for making a diagnosis that is based on clinical experience and scientific research. Although hardly investigated, also the two forms of delayed ejaculation and

anejaculation can be recognized by symptoms that are not always presented in textbooks. The aforementioned subtle and subjective manifestations of ejaculatory disorders will be discussed in detail.

WS-02**WORKSHOP****10:00–11:00****Auditorium 12**

Erectile dysfunction: Difficult cases

Expert: Dimitris Hatzichristou, Greece

Chair: Ilan Gruenwald, Israel

Audience: The workshop has been designed for physicians who treat regularly patients with erectile dysfunction. The contents include two parts: a) an introductory 20min “tips and tricks” session, and b) a number of well-designed clinical cases. The second part will allow the participants to understand why clinical experience is a significant complementary component of the evidence-based medicine.

Aim: In the everyday clinical practice, physicians deals with several challenging cases. Quite commonly, there are theoretically easy straightforward cases to deal with, however in reality we fail to manage such cases. Sexual history may not reveal the real cause(s) of the problem, existence of a co-morbidity leads us to characterize incorrectly a case as of organic origin, a diagnostic procedure may lead to false positive results and a typical treatment may not work. After presenting the principles and personal experience in the management of such cases, we will run a number of cases, where the audience will be asked to express their views. At the end of the workshop, we will summarize some critical steps “never-to-forget” in our everyday clinical practice.

Learning objectives

- ▶ To learn the secrets of the sexual history
- ▶ To learn how to differentiate the psychogenic component in organic cases
- ▶ To learn the secrets of the diagnostic procedures, e.g. triplex ultrasonography
- ▶ To learn how to evaluate non-responders to pharmacotherapy
- ▶ To learn how to treat truly non-responders
- ▶ To learn how to teach intracavernosal injections to your patients
- ▶ To discuss cases that treatment did not worked for them

Workshops

Summary of contents

Tips and tricks for the everyday clinical practice

Sexual history is difficult to learn. The physician may use typical questions to explore the problem. Several times however it is difficult to understand for example, if it is a problem of sexual desire or arousal. Or if it is an organic problem due to diabetes or the psychogenic consequences of diabetes. Even in organic cases, it is challenging to differentiate if the ultrastructural changes that lead to the dysfunction are permanent, or there is a way to restore them. Therefore, we will present the ways to identify the severity of each aetiological factor of the problem and an approach to treat each one of them. Diagnostic procedures on the other hand allows a more comprehensive work-up, however, as erectile mechanism is under control of the sympathetic nervous system, in many cases incomplete relaxation of the corporal smooth muscle may lead to a false diagnosis of vasculogenic ED, or to the diagnosis of severe vasculogenic ED in cases of mild or moderate vasculogenic problems. Methodologies to overpass the problem will be presented. Finally, in 30% of patients the PDE5 inhibitors do not work. Patient education, selection of the appropriate drug or dosages may solve the problem. We will present such practical tricks and salvage techniques. And if the solution is intracavernosal injection therapy, the steps to teach patients self-injecting without complications is easy. A step-wise practical approach will be discussed in details.

WS-03

WORKSHOP

11:00 – 12:00

Auditorium 12

Genital surgery – how to avoid complications

Experts: David Ralph, Giulio Garaffa, United Kingdom

Chair: Fabrizio Palumbo, Italy

Aim: Complications in all surgery occur. The aim is to reduce their incidence and be able to manage them quickly and effectively and thereby minimise the usual poor outcome. With increasing experience, surgeons learn from their mistakes and are therefore more likely to know how to avoid specific complications. Avoidance of genital surgery complications is discussed in this workshop.

Learning objectives

- ▶ To identify the correct operation for the patient
- ▶ To give patients realistic expectations
- ▶ Informed consent is imperative
- ▶ To identify specific issues in Peyronie's surgery and penile implants that will help in minimising early and late complications
- ▶ To discuss common genital operations that frequently are associated with complications

Summary of contents

Peyronie's surgery / Giulio Garaffa, 20 min

Indications, expectations and consent

Complication prevention – shortening, recurrent curvature, ED, foreskin issues, sutures

Penile prosthesis / Fabrizio Palumbo, 20 min

Indications, expectations and consent

Complication prevention – infection, erosion, positioning, revision surgery, deformities

Penile reconstruction / David Ralph, 20 min

Complication prevention in – augmentation surgery, skin grafting, circumcision

6 February 2015

WS-04

WORKSHOP

08:30 – 10:00

Auditorium 12

Hormonal difficulties in men and women

Experts: Mario Maggi, Linda Vignozzi, Italy

Chair: Giovanni Corona, Italy

Audience: The workshop has been designed for physicians and sexologists who regularly treat patients with sexual dysfunction. The lecture includes two parts: the first one deals with the contribution of the endocrine system in the physiology and pathophysiology of male sexual problems. The second part is on female sexual dysfunction. A series of clinical cases would be presented in order to involve the audience in the right evidence-based choice.

Aim: Hormones represent one of the most common forms of sexual communication. Therefore, when sexual communication is problematic, such as in the case of endocrine disorders, investigating sexual dysfunction is mandatory. Many endocrine disorders, or their treatments, are characterized by several alterations in sexual response. Endocrine disorders are usually considered easy to diagnose and often-remediable, however, they frequently receive little attention. In addition, it should be recognized that the assessment of endocrine disorders can uncover serious diseases, such as pituitary tumors, or can help in stratifying the CV risk of ED patients. All these points would be analyzed during the presentations and specific practical take home messages would be delivered.

Learning objectives

- ▶ To learn the role of the endocrine system in the physiology of male and female sexual responses
- ▶ To learn how to recognize the symptoms and signs of the most important endocrine diseases involved in the pathogenesis of male and female sexual dysfunction

Workshops

- ▶ To learn how to diagnose the most important endocrine diseases involved in the pathogenesis of male and female sexual dysfunction
- ▶ To learn how the correction of the endocrine problem might improve male and female sexual function
- ▶ To learn the possible outcomes of combinations between endocrine therapy and traditional therapies used for the treatments of male and female sexual dysfunction

Summary of contents**Tips and tricks for the everyday clinical practice**

Hormone alterations can be involved in determining sexual dysfunction both in men and women, or they can be the consequence of sexual problems, often with a bidirectional interconnection. In particular, the most frequently reported endocrinopathies in men are hypogonadism, hyperprolactinemia and hypothyroidism whereas hyperthyroidism is less often associated with sexual dysfunction. Testosterone has a pivotal role in regulating several aspects of the male sexual response, and its deficiency is probably the underlying cause for a consistent portion of male sexual dysfunctions. Despite this evidence, the widespread screening for hypogonadism in subjects with sexual dysfunction, and the role of testosterone supplementation as a possible treatment, still remains questionable. The association between severe hyperprolactinemia and male reduced sexual desire is well known. Conversely, the role of prolactin in the pathogenesis of erectile dysfunction is still conflicting. Obesity and type 2 diabetes mellitus (T2DM) are common metabolic disorders. Male subjects with sexual dysfunction represent a population overloaded with these conditions, which contributes to increasing the overall high cardiovascular risk as well to the increased prevalence of hypogonadism. On the contrary, evidence regarding the association between metabolic diseases and female sexual dysfunction are less conclusive, although most studies documented a higher prevalence of female sexual dysfunction in diabetic women as compared to non-diabetic ones. Female sexual function appears to be more related to psychosociological issues than to the organic consequence of diabetes. Chronic hyperprolactinemia is classically associated with hypogonadotropic hypogonadism and sexual dysfunction also in females and its successful treatment generally normalizes sexual function. In addition, in females, menopause with a progressive decline of sex steroid hormones as well as the aging process associated with many psychological stressors, modulate vulnerability for sexual symptoms (hypoactive sexual desire, reduced arousal and lubrication, dyspareunia, orgasmic dysfunction and lack of satisfaction). Among all these symptoms the most common one is decreased libido.

WS-05**WORKSHOP****11:00–12:00****Auditorium 12****Title:** Infertility and sexuality**Experts:** Ates Kadioglu, Turkey, Natalio Cruz Navarro, Spain, Johannes Bitzer, Switzerland**Chair:** Natalio Cruz Navarro, Spain

Audience: Workshop designed for physician and psychologist who deal with sexuality or infertility. Content divided in 2 section according to gender of the patients. The influence of both sexuality and infertility on the patient and each other will be addressed.

Aim: Although a bidirectional link is accepted to exist between infertility and sexual dysfunction, only 5% of the infertility cases are caused by sexual dysfunction. While erectile dysfunction and inability to ejaculate are infertility causes of male origin, vaginismus is only infertility reason originating from female sexual dysfunction (FSD). However both infertility treatment and the disease itself have a great negative impact on the sexual life of infertile couples. The causality relationship of infertility and SD is hypothesized to be depending on the loss of sexual spontaneity, direct linkage of sex into pregnancy without entertainment, decreased self-esteem and body image of the individuals. In addition the inter-relationship problems and the possible negative influence of hormonal treatment aggravates the sexual dysfunction problem. The aim of this workshop is to increase the urologists' awareness about this cause-effect relation and furthermore prepare our colleagues for the diagnosis and prevention of this disease.

Learning objectives

- ▶ The awareness of the bidirectional link of sexual dysfunction and infertility
- ▶ Assessment and prevention of possible risk factors
- ▶ Investigating both male and female aspects of this phenomena
- ▶ Diagnosis and management of sexual dysfunction in infertile couples
- ▶ Update the literature knowledge of the attendees about the subject
- ▶ Application of the obtained skill set to their clinical practice

Summary of contents**Moderator:** Ates Kadioglu, Turkey

- ▶ Male infertility and sexual dysfunction (prevalence, diagnosis, treatment) / Natalio Cruz Navarro, 25 min
- ▶ Female infertility and sexual dysfunction (prevalence, diagnosis, treatment) / Johannes Bitzer, 25 min
- ▶ Questions-Answers, 10 min

Workshops

7 February 2015

WS-06

WORKSHOP

09:00–10:00

Auditorium 12

Vulvodynia, vestibulodynia and sexual pain disorders (diagnosis, examination and treatment)

Experts: Johannes Bitzer, Switzerland, Lior Lowenstein, Israel, Gidenon Sartorius, Switzerland

Chairs: Johannes Bitzer, Switzerland, Lior Lowenstein, Israel

Audience: The workshop is designed for physicians, physiotherapist, psychologists involved in the care for women who complain about provoked and unprovoked pain in the vulvar region as well as those women who suffer from dyspareunia.

Aim: Present and discuss standard operating procedures for care by giving background evidence based information, showing and discussing gaps in knowledge and how to handle these gaps in clinical practice, apply knowledge and skills some case discussion.

Learning objectives

- ▶ To learn: How to encourage patients to talk about complaints in an intimate region and pain related to sexuality; Understand and differentiate the clinical entities and the diagnostic categories and apply a diagnostic algorithm, know about the biological, psychological and interactional causes of the symptoms and know how to assess them. Find solutions in a process of shared decision making
- ▶ To be able to care for these patients in a patients centered individualized way

Summary of contents

Knowledge: Clinical entities, classification, diagnostic algorithm, SOPs, therapeutic options

Skills: Communication, questions to ask, examination

Attitude: Patient centeredness, empathy, patience

WS-07

WORKSHOP

11:00–12:00

Auditorium 12

How to improve patients' satisfaction and compliance

Expert: John Dean, United Kingdom

Chair: Paraskevi-Sofia Kirana, Greece

Audience: Physicians and psychologists treating men and women with sexual dysfunctions.

Aim: To help clinicians tailor their daily clinical practice in ways that improve patient's satisfaction and compliance with medication and treatment strategy.

Learning objectives

- ▶ To understand the significance of treatment satisfaction and compliance in the field of sexual medicine
- ▶ To understand the relationship between satisfaction and compliance
- ▶ To recognize factors that lead to non compliance and low treatment satisfaction
- ▶ To become familiar with practical skills that improve patients' satisfaction and compliance

Summary of contents

Compliance with treatment strategies is a very important clinical issue in sexual medicine. In prescribing medication, compliance means "the extent to which the patient takes the medication as prescribed". Many organic sexual dysfunctions require life long medication use, while in psychogenic cases, medication use is often intended to gradually decrease as patients become more competent. Although significant advances in medications have been made for the treatment of sexual dysfunctions, non compliance rates are very high, and this often leads to relapse, disappointment and low treatment satisfaction. It must be noted, that in many cases, non compliance refers not only to under use but also overuse of medication. Therefore, enhancing compliance (or preventing noncompliance) is an important treatment goal for patients and clinicians. In addition, sexual dysfunctions that require non pharmacological treatment methods have high drop out rates. The following categories of factors that affect treatment satisfaction and compliance will be discussed: Patient characteristics, the treatment setting, treatment characteristics, clinical features of the dysfunction/disorder, clinician expertise. Although knowledge of these factors is the first step, it is not enough to improve patient's compliance and satisfaction. Other steps include the establishment of a strong alliance with the patient, patient education about the dysfunction and the importance of maintenance treatment, patient education about the medication, drug interactions, pharmacokinetics and side effects, costs etc, combining medication prescription with sexuality education aiming to enhance the effectiveness of medication. Part of the workshop will address specific ways to improve compliance and satisfaction respectively, for each of the most common sexual dysfunctions of men and women.

General Information

CONGRESS VENUE

Bella Center
Center Boulevard 5
2300 Copenhagen S
www.bellacenter.dk

CONGRESS REGISTRATION COUNTER

All congress materials and documentation will be available at the congress registration counter located in the entrance area of the Bella Center. The congress staff will be pleased to help you with all enquiries regarding registration, congress material and congress program. Please do not hesitate to contact the staff members if there is anything they can do to make your stay more enjoyable.

Opening Hours

Thursday, 5 February 2015	07:30 – 18:00
Friday, 6 February 2015	08:00 – 18:00
Saturday, 7 February 2015	08:00 – 18:00

During opening hours the congress counter can be reached by phone at: +45 – 32 – 472952

REGISTRATION FEES

Registration fee for participants includes:

- ▶ Admission to all scientific sessions and workshops
- ▶ Admission to poster and technical exhibition
- ▶ Admission to the ESSM opening ceremony and networking reception on 5 February 2015
- ▶ Conference materials, such as delegate bag, final program
- ▶ Morning and afternoon coffee breaks from Thursday to Saturday

CONGRESS FEES

Registration and Payment	from 21 Oct 2014
ESSM members, physicians (MD)	EUR 600
Non-members, physicians (MD)	EUR 700
ESSM members with reduced fees*: Nurses, residents in training, scientists (Phd), psychologists, therapists, students	EUR 250
Non-members with reduced fees*: Nurses, residents in training, scientists (Phd), psychologists, therapists, students	EUR 300

* A letter of the chairman of the department is necessary.

CONGRESS LANGUAGE

The congress language is English. Simultaneous translation will not be provided. Symposia in national languages organized by the National Affiliated Societies (NAS) will be offered in a dedicated room throughout the congress days.

PUBLICATIONS FOR PROCEEDINGS

The European Society for Sexual Medicine retains the right to publish all material presented at the congress in an ESSM publication.

ABSTRACT PUBLICATION

Accepted abstracts that are presented during the congress will be published in the online JSM supplement available from end of March 2015. Accepted abstracts that are not presented by the author or a presenter will not be published in the JSM online supplement.

Abstracts will also be published in CO CONGRESS ONLINE® from one day prior to the congress (4 February 2015) on the congress website and on CONGRESS MOBILE®, the congress app.

CO CONGRESS ONLINE®

For the 17th ESSM Congress 2015 the web based congress information system CO CONGRESS ONLINE® has been set up again at www.essm-congress.org.

CO CONGRESS ONLINE® offers an extensive congress service and provides you with information on:

- ▶ Up-to-date information about the preparation of the congress
- ▶ List of topics
- ▶ Call for oral presentations and posters
- ▶ Preliminary and final scientific program
- ▶ Accepted abstracts
- ▶ List of exhibitors
- ▶ Acknowledgements of sponsors
- ▶ Congress venue
- ▶ City of Copenhagen
- ▶ Hotel accommodation
- ▶ Travel to Copenhagen
- ▶ News

General Information

SPEAKERS CENTRE

The speakers centre is located in room 16 on level 1 of the Bella Center. Speakers are asked to hand in their CD ROM or USB stick, containing the PowerPoint presentation (IBM format or compatible, no multisession) preferably one day before their presentation but at least 90 minutes prior to the presentation. The presentation will be transferred to the central congress server and will be available afterwards on a special congress notebook in the hall of the presentation. Due to time and technical reasons we kindly ask the speakers not to use their own notebook. Several PC working stations are provided in the speakers centre where speakers can also work on their PC charts in a quiet area. Technical staff will be glad to assist.

Opening Hours

Thursday, 5 February 2015	07:30 – 18:00
Friday, 6 February 2015	08:00 – 18:00
Saturday, 7 February 2015	08:00 – 18:00

Operated by Estensis GmbH –

Powered by GLOBIT's acclaimed CONGRESS MOBILE® software.

Further information is given at
www.essm-congress.org/app

WIRELESS LAN

As a courtesy to all participants wireless LAN in the exhibition area allows easy access to the internet. Please select WiFi network (SSID) **ESSM2015**.

ESSM MEMBERSHIP ISSUES

For ESSM membership issues and any other ESSM business, please contact our ESSM booth which is situated in the exhibition hall A1 of the Bella Center.

NAME BADGES

All participants are kindly requested to wear their name badges at all times during the congress. The colors of the name badges have the following significance:

Congress delegate:	blue
Press:	yellow
Exhibition:	green
Staff:	red

TECHNICAL EXHIBITION

The technical exhibition will be situated in the exhibition hall A1 of the Bella Center. Coffee bars will be located in the technical exhibition.

Opening Hours

Thursday, 5 February 2015	10:00 – 20:00
Friday, 6 February 2015	08:30 – 17:00
Saturday, 7 February 2015	08:30 – 17:00

POSTER EXHIBITION

Posters, highlighted posters and case presentations will be sited in the Hall A1 of the Bella Center.

ESSM highlighted poster tours will take place during the coffee breaks on Thursday, Friday and Saturday. Each poster tour includes seven poster presentations chaired by two senior scientists. For further information please see from page 33 of the scientific program.

Opening Hours

Thursday, 5 February 2015	10:00 – 20:00
Friday, 6 February 2015	08:30 – 17:00
Saturday, 7 February 2015	08:30 – 17:00

General Information

COFFEE BREAKS AND LUNCHES

Coffee and tea will be served during the morning and afternoon, daily from Thursday, 5 to Saturday, 7 February 2015 free of charge to all participants wearing congress name badges. A daily snack lunch as well as coffee breaks will be served in the Hall A1. The congress venue also provides a restaurant in the adjacent restaurant of the Bella Sky Hotel.

CLOAKROOM

A cloakroom free of charge is available in the entrance area of the Bella Center. Delegates can also store their luggage here.

EMERGENCY AND FIRST AID

In the case of emergency please address the staff at the registration counter in the entrance area of the Bella Center. The attentive staff will be pleased to help.

RECORDING

Cameras, video cameras or audio recording devices are not permitted in the session rooms. Any recording of sessions is strictly forbidden.

SMOKING

The Bella Center is a non-smoking venue. Smoking is prohibited within the congress venue.

VISA

The entry formalities for Denmark vary according to the country of origin. Please address enquiries about entry and vaccination to your travel agent or the local Danish consulate. Further information can also be found at <http://um.dk/en/travel-and-residence/danish-visa-rules/>

INSURANCE

The congress fee does not include insurance. All participants should arrange for their own insurance. Health and accident insurance is recommended and has to be purchased in your country of origin.

FORCE MAJEURE

For reasons beyond its control (such as war, strikes, lockouts, riots or any such civil disturbances, any acts of god, including but not limited to earthquakes, floods, droughts and typhoons and any other cause of circumstance of whatsoever nature beyond control) that have an impact on the arrangements, timetables or planning of the 17th Congress of the European Society for Sexual Medicine and its corresponding activities in Copenhagen, Denmark, ESSM has the right to immediately alter or cancel the activities or events or any of the arrangements, timetables, plans or other items relating directly or indirectly thereto. No party involved shall be entitled to any compensation for damages that result from such alteration or cancellation.

TIME

During winter time from November to March the time zone in Denmark is CET (Central European time).

CURRENCY

The 'krone' (DKK) is the official currency of Denmark. Exchange rate: 1 EUR = 7,44 DKK (January 2015). Major credit cards are generally accepted by most of the hotels, restaurants and shops.

CLIMATE

In general Denmark can be very windy since it is a coastal country. Winters are long, dreary and cold.

BANK AND ATM

Most banks in Denmark have automated teller machines (ATMs) that give cash advances on Visa and MasterCard credit cards as well as Cirrus and Plus bank cards. Although ATMs are accessible outside normal banking hours, not all are open 24 hours; particularly outside of Copenhagen.

ELECTRICITY

The local voltage is 230 V with C&F plugs. A voltage converter and plug adapter is needed for US appliances.

General Information

BELLA CENTER

The 17th ESSM Congress will take place in the Bella Center which is known as one of the number one exhibition, congress and convention centres in Scandinavia, and located in the surroundings of the Copenhagen city centre.

COPENHAGEN

Copenhagen has a history as being one of the great design capitals of the world with some of the world's most stunning modern architecture and interiors. A one thousand year history, tales from the oldest monarchy in the world, fairy tale writing and celebrated international designers await the delegates in the medieval streets, 17th century canals, and modernist architecture of Copenhagen.

TRAVEL TO COPENHAGEN AND BELLA CENTER

By plane

Copenhagen is easy accessible from many European airports with direct flight connections. It is the largest airport in Scandinavia. The city centre is only 13 minutes away by metro or train. From Copenhagen Airport it takes 10 minutes to reach the Bella Center. A regional train runs from the airport to Ørestad Station, the station of the Bella Center.

By train

Copenhagen Central Station is located in the heart of the city, bordering to the rough but also trendy Vesterbro. It is a gateway to all public transportation in and out and around Copenhagen. From Copenhagen Central Station it takes approx. 10 minutes by metro to reach the Bella Center. The name of the metro station is Bella Center.

By car

Bella Center is located at Center Boulevard 5, 2300 Copenhagen S.

Follow the „Airport Motorway“, E20. The exit to Center Boulevard is number 19 and is called „Ørestad“ with „Bella Center“ listed below.

PUBLIC TRANSPORTATION IN COPENHAGEN

The public transportation in Copenhagen is reliable, punctual, and it goes everywhere in the city. In Copenhagen the trains, metro and busses (including waterbuses) can be accessed with the same ticket. All you need to know is how many zones you will pass on your journey. Note the metro will take you from the airport to central Copenhagen in only 20 minutes.

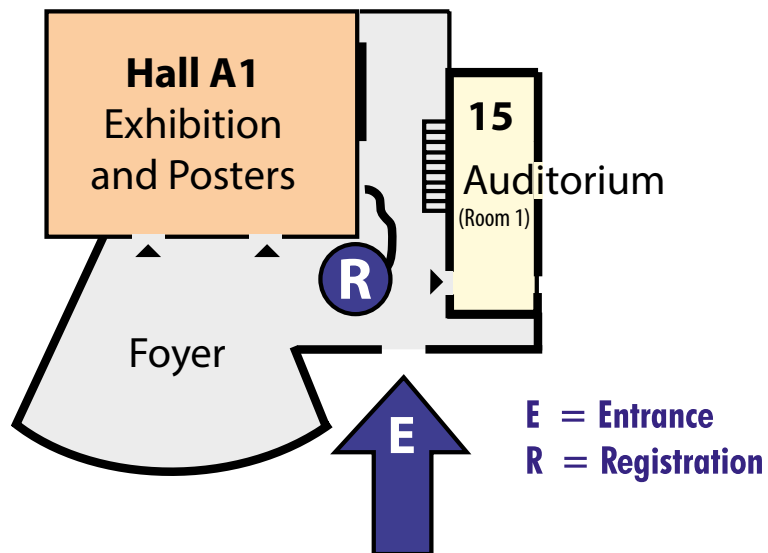

TAXIS TO BELLA CENTER

Bella Center is just a 10–15 minutes' taxi drive from Copenhagen Central Station and not more than 10 minutes from Copenhagen Airport by taxi. A taxi from Bella Center to the city centre costs about DKK 200. A taxi from Bella Center to Copenhagen Airport costs about DKK 150–200.

Rapid onset of action

and duration of effect, make Spedra®
an attractive option for males with ED¹

Spedra®
avanafil
rapid and sustained efficacy²

References: 1. Hellstrom WJG *et al.* BJU Int 2012; 111: 137-147. 2. Goldstein I *et al.* J Sex Med 2012; 9 (4): 1122-1133.

▼ Spedra® 50mg, 100mg and 200mg tablets ABBREVIATED PRESCRIBING INFORMATION

▼ This medicinal product is subject to additional monitoring. This will allow quick identification of new safety information. Healthcare professionals are asked to report any suspected adverse reactions. See section 4.8 for how to report adverse reactions. Please consult the Summary of Product Characteristics (SPC) for full prescribing information.

Presentation: Tablets containing 50 mg, 100 mg or 200 mg of avanafil.
Use: Treatment of erectile dysfunction in adult men. In order for Spedra to be effective, sexual stimulation is required.

Dosage: Oral administration. Adult men: Recommended dose 100 mg, taken as needed, approximately 30 minutes before sexual activity. Dose may be increased to a maximum dose of 200 mg or decreased to 50 mg. Maximum recommended dosing frequency is once per day. No dose adjustment needed for older men, mild to moderate renal impairment or diabetes. Initiate treatment at minimum efficacious dose and adjust posology based on tolerance for mild to moderate hepatic impairment. Maximum recommended dose should not exceed 100 mg with concomitant treatment with moderate CYP3A4 inhibitors, leaving at least 48 hours between doses. If taken with food, the onset of activity may be delayed compared to the fasted state.

Contraindications: Hypersensitivity to active substance or excipients. Patients using any form of organic nitrate or nitric oxide donors. Consider potential cardiac risk of sexual activity in patients with pre-existing cardiovascular disease before prescribing. Contraindicated in myocardial infarction, stroke, or life-threatening arrhythmia within the last 6 months; resting hypotension ($90/50$ mmHg) or hypertension ($170/100$ mmHg); unstable angina, angina with sexual intercourse, or congestive heart failure. Severe hepatic or renal impairment. Loss of vision in one eye because of non-arteritic anterior

ischemic optic neuropathy. Known hereditary degenerative retinal disorders. Potent CYP3A4 inhibitors.

Warnings and Precautions: Undertake medical history and physical examination to diagnose erectile dysfunction and determine potential underlying causes, before considering pharmacological treatment. Consider the cardiovascular status of patients before initiating treatment. Instruct patients who experience priapism to seek immediate medical assistance. Use with caution in patients with anatomical deformation of the penis or conditions which may predispose them to priapism. Advise patients to stop taking Spedra and consult a physician immediately if sudden visual effects occur. No safety information in patients with bleeding disorders or active peptic ulceration, therefore administer to such patients only after careful benefit-risk assessment. Advise patients to stop taking PDE5 inhibitors, including avanafil, and seek prompt medical attention in event of sudden decrease or loss of hearing. Concomitant use with alpha-blockers may lead to symptomatic hypotension in some patients. Co-administration with potent inhibitors of CYP3A4, such as ketoconazole or ritonavir is contraindicated. Concomitant use of other treatments for erectile dysfunction has not been studied, thus inform patients not to take avanafil in such combinations. Advise patients concurrent use of avanafil and alcohol may increase the likelihood of hypotension, dizziness or syncope. Not studied in erectile dysfunction due to spinal cord injury or other neurological disorders and in subjects with severe renal or hepatic impairment.

Interactions: Administration with organic nitrate or nitric oxide donor contraindicated. May cause symptomatic hypotension with medicinal products which reduce systemic blood pressure. Alpha-blockers, other antihypertensives, alcohol. Moderate CYP3A4 inhibitors - maximum recommended dose 100 mg, do not exceed once every 48 hours. Avoid grapefruit juice within prior 24 hours. Concomitant

use with CYP inducers not recommended. Please consult the SPC for more details and other interactions.

Side-effects: Common (1-10%): headache, flushing, nasal congestion. Uncommon (0.1-1%): dizziness, somnolence, sinus headache, blurred vision, palpitations, hot flush, sinus congestion, exertional dyspnoea, dyspepsia, nausea, vomiting, stomach discomfort, back pain, muscle tightness, fatigue, hepatic enzyme increased, electrocardiogram abnormal, heart rate increased. Rare (0.1-0.01%): influenza, nasopharyngitis, seasonal allergy, gout, insomnia, premature ejaculation, inappropriate affect, psychomotor hyperactivity, angina pectoris, tachycardia, hypertension, rhinorrhoea, upper respiratory tract congestion, dry mouth, gastritis, lower abdominal pain, diarrhoea, rash, flank pain, myalgia, muscle spasms, pollakiuria, penis disorder, spontaneous penile erection, genital pruritus, asthenia, chest pain, influenza like illness, peripheral oedema, blood pressure increased, blood urine present, cardiac murmur. Increased PSA, weight, blood bilirubin, blood creatinine and body temperature.

Marketing Authorisation Number: Spedra 50 mg: EU/1/13/841/001-003; Spedra 100 mg: EU/1/13/841/004-007; Spedra 200 mg: EU/1/13/841/008-010. VS-01 VIDEO SESSION**13:30–15:30 Auditorium 15**

Surgical treatment of male infertility and sexual dysfunction

Chairs: Ates Kadioglu, Turkey

Salvatore Sansalone, Italy

001 Peyronie's disease

Javier Romero Otero, Spain

002 Congenital penile deviation

Natalio Cruz, Spain

003 Challenging cases in penile implant surgery

Carlo Bettocchi, Italy

004 Penoplasty and complementary procedures: Step-by-step

Alessandro Littara, Italy

005 Lengthening and girth restoration with penile prosthesis implantation without graft

Paulo Egydio, Brazil

006 Microsurgical varicocele repair

Dana Ohl, USA

007 Micro-TESE

Joaquin Sarquella, Spain

008 Bilateral impending distal erosion treated by bilateral distal re-tunnelling upon penile MRI guidance

Edoardo Pescatori, Italy

Supported by an educational grant from Coloplast A/S

CM-01 CASE SESSION**15:30–16:30 Auditorium 15**

Cases that matter 1

Chairs: David Ralph, United Kingdom

Hartmut Porst, Germany

Yacov Reisman, The Netherlands

001 Erectile dysfunction: A window to the heart

Vitaliy Androshchuk, United Kingdom

002 Hyper sexuality and compulsive behaviors triggered by dopaminergic therapies in a case of Parkinson's disease

Stefania Chiappini, Italy

003 Sexual dysfunction caused by intrauterine device migration to the urinary bladder: A case report

Konstantinos Dimitropoulos, Greece

004 Malignant priapism secondary to urothelial cell carcinoma

Francesco De Luca, United Kingdom

Supported by an educational grant from Eli Lilly and Company

Industry Sessions I Friday 6 February 2015

LV-01 LIVE SURGERY**08:30–12:00 Auditorium 15**

Male sexual dysfunction

Chairs: David Ralph, United Kingdom
Javier Romero Otero, Spain

001 Surgeon in operation room #1
Giulio Garaffa, United Kingdom

002 Surgeon in operation room #1
Evangelos Zacharakis, United Kingdom

Chairs: Sebastian Beley, France
Danial Osmonov, Germany

003 Surgeon in operation room #2
Dana Ohl, USA

004 Surgeon in operation room #2
Lasse Fahrenkrug, Denmark

Live broad cast from Herlev hospital

Supported by an educational grant from Coloplast A/S

SA-02 SATELLITE SYMPOSIUM**12:30–14:00 Auditorium 15**ED and PE: *Disputationes* on male and female perspectives

Chair: Vincenzo Mirone, Italy

Opening Lecture – ED and PE: State of the art
Vincenzo Mirone, Italy

PE: Male and female perspectives
Chris McMahon, Australia
Alessandra Graziottin, Italy

ED: Male and female perspectives
Hartmut Porst, Germany
Andrea Burri, Switzerland

Q&A and closing remarks
Vincenzo Mirone, Italy

Industry sponsored satellite symposium
by the Menarini Group

RT-06 ROUND TABLE**10:30–12:00 Auditorium 10/11**

Bench-to-bedside: Premature ejaculation – a translational update 2015

Chairs: Patrick Jern, Finland
Onder Yaman, Turkey

001 Central and serotonergic origins of PE
Francois Giuliano, France

002 Genomic alterations in lifelong premature ejaculation
Paddy Janssen, The Netherlands

003 Peripheral manipulations for premature ejaculation
Ege Can Serefoglu, Turkey

004 New molecular targets in the hormonal control of ejaculation. Where are we running?
Emmanuele A. Jannini, Italy

Supported by an educational grant from the
Menarini Group

RT-16 ROUND TABLE**16:00–17:15 Auditorium 15**

State of the art in intracavernosal injection therapy for PDE5-inhibitor nonresponders

Chair: Geoffrey Hackett, United Kingdom

001 The history of penile injection therapy – past present and future
Ronald Virag, France

002 Office work-up of PDE5-inhibitor failures
Andrea Salonia, Italy

003 Molecules for injection: Pharmacological properties and potential benefits
Stefan Arver, Sweden

004 The clinician's stand point: Experience with injection therapy
Hans Joergen Kirkeby, Denmark

Supported by an educational grant from Evolan Pharma

ESSM

European Society for
Sexual Medicine

The European Society for Sexual Medicine (ESSM) is a not-for-profit, multidisciplinary, academic and scientific organisation dedicated to male and female sexual health and dysfunction.

Benefits from Becoming an ESSM Member

- ESSM offers its members a permanently updated web-site with different forums and a monthly update of the whole scientific literature of Sexual Medicine, Andrology and related medical disciplines.
- ESSM provides its members quarterly newsletter, ESSM Today which features the most recent news in the field of Sexual Medicine and focuses on key topics of interest to physicians in the field.
- ESSM has supported the creation of the Multidisciplinary Joint Committee on Sexual Medicine (MJCSM) that is working under the auspices of the European Union of Medical Specialists (UEMS). MJCSM's objectives are to study, promote and harmonize the highest level of Sexual Medicine in Europe – both on the basic and postgraduate level. The MJCSM will determine the standards for training and assessment in Sexual Medicine. Successful candidates will be awarded on behalf of the MJCSM the title of "Fellow of European Committee on Sexual Medicine (FECSM).
- Since 2007 ESSM has offered interested ESSM members the participation in a course of the European School of Sexual Medicine. Since 2013 the course is held in Budapest with the participation of more than 30 students from all over the world, supervised by the School Directors Yacov Reisman and Francesca Tripodi.
- Besides this structured course ESSM offers at its annual congresses tailor-made workshops covering the key contents of the ESSM educational program.
- ESSM provides to its members important research grants which all members are welcome to apply for according to eligibility criteria. These are intended to further research into any aspect of Sexual Medicine and are awarded with a maximum of EUR 30.000,00 each for a maximum of 18 months project duration.
- ESSM recognizes that basic scientists who are not actively engaged in clinical work in sexual medicine field may have had difficulty finding funds to attend the ESSM Annual Congresses and therefore awards a number of free registration and travel funds.
- Fellowship support options are available either on individual application, supported by the National Affiliated Societies or by applying to different initiatives supported by the ESSM and open for members to apply upon invitation.

Take Your Chance – Become a Member of ESSM, Now!

Seize the day, or in Latin Carpe diem and become a member of ESSM now, to take all the advantages and benefits of ESSM membership.

There are two levels of ESSM membership available:

ESSM/ISSM Membership

A combined ESSM/ISSM membership (annual fee 160 EUR) for both Sexual Medicine Societies (ESSM/ISSM) including all ESSM and ISSM membership related services, including a subscription to the Journal of Sexual Medicine which is the monthly journal of the ISSM (International) and ESSM (European), and is the leading Journal in the field of Sexual Medicine. In addition there are reduced registration fees for all ISSM/ESSM related congresses.

ESSM only Membership

ESSM only membership (annual fee 50 EUR – reduced to 25 EUR for residents in training) which includes the ESSM official Scientific and Social periodical, the „ESSM Today“, full access to the new comprehensive ESSM website:

www.essm.org

(including regularly updated scientific material, monthly updated literature reviews, the most recent guidelines, lecture recordings and presentations from past ESSM congresses), the opportunity to participate in the ESSM educational programs, and to apply for scientific and support grants and a reduced fee for the ESSM annual congress.

Formal ESSM membership applications can either be submitted directly to the ESSM or through one of the national ESSM affiliated societies. The ESSM Executive Committee is responsible for the approval of the membership application.

ESSM Annual Membership Fees (January to December)

Combined ESSM/ISSM Fee incl. JSM Journal	EUR 160
ESSM only Fee	EUR 50*

* A reduced fee EUR 25 is available for residents in training against proof of evidence.

Low testosterone?

TESTIM restores testosterone levels, producing significant improvement in sexual function and mood as well as increased BMD and improved lean body mass¹

Testim[®] 50mg gel
testosterone

Abbreviated Prescribing Information

Prescribing Information: Testim 50mg Gel. Testim is a clear to translucent gel. One tube of 5 g gel contains 50 mg testosterone. **Indication:** Testosterone replacement therapy for male hypogonadism when testosterone deficiency has been confirmed by clinical features and biochemical tests. **Dosage and administration:** Recommended starting dose: One tube of 5 g gel daily. If serum testosterone levels are below the normal range, the dose may be increased from 50 mg (one tube) to 100 mg (two tubes) once daily. Once opened apply the entire content of the tube immediately to clean dry intact skin of the shoulders and/or upper arms, preferably in the morning. Wash hands immediately after use. Do not apply to the genital area. Not for use in children. Not clinically evaluated in males less than 18 years of age. **Contraindications:** Androgens are contraindicated in men with carcinoma of the breast or known or suspected carcinoma of the prostate. Hypersensitivity to testosterone (synthesised from soy) or to any of the excipients. **Pregnancy and lactation:** Testim is not indicated for women and must not be used in pregnant or breastfeeding women. Pregnant women must avoid skin contact with Testim application sites. **Warnings and precautions:** Prior to therapy, the risk of prostate cancer must be excluded. Examine breast and prostate gland at least yearly and twice yearly in elderly or at risk patients (those with clinical or familial factors). Monitor serum calcium levels in patients with skeletal metastases at risk of hypercalcaemia/hypercalcuria. Testosterone may cause oedema with or without congestive cardiac failure

in patients with severe cardiac, hepatic or renal insufficiency. In this case, stop treatment immediately. Use with caution in patients with hypertension, ischemic heart disease, epilepsy, and migraine. Possible increased risk of sleep apnoea in patients who are obese or with chronic respiratory disease. Improved insulin sensitivity may occur. Irritability, nervousness, weight gain, prolonged or frequent erections may indicate excessive androgen exposure requiring dosage adjustment. If severe application site reaction occurs, discontinue treatment if necessary. Periodically monitor testosterone concentrations, full blood count, lipid profile, and liver function. Testosterone may produce a positive reaction in an anti-doping test. Not for use in women. The gel may be transferred to others by skin to skin contact, which could lead to adverse reactions (inadvertent androgenisation) by repeated contact. Inform the patient about the transfer risk, which can be prevented by covering or washing the site before contact. Testim gel should not be prescribed for patients who may not comply with safety instructions (e.g. severe alcoholism, drug abuse, severe psychiatric disorders). The content of the tube is flammable. Testim contains propylene glycol which may cause skin irritation. **Interactions:** Interactions have been reported with oral anticoagulants, ACTH, corticosteroids and propranolol. Laboratory tests have shown that androgens may decrease levels of thyroxine-binding globulin. **Undesirable effects:** Common (1% to <10%): Application site reactions (rash, erythema, pruritus), increased PSA, hypertension worsened, acne, headache, increased haematocrit, increased

red blood cell count and increased haemoglobin. Uncommon (0.1% to <1%): Hot flushes/flushing, pruritus and peripheral oedema. Very rare (<0.01% to not known): Azoospermia. Gynaecomastia may uncommonly develop and persist. Other known reactions to testosterone are: Prostate cancer, electrolyte changes, decreased libido, anxiety, emotional lability, generalized paresthesia, nausea, jaundice and liver function test abnormalities, hirsutism, alopecia, seborrhoea, muscle cramps, increased frequency of erections, priapism, prostate abnormalities, altered blood lipid levels (including reduction of HDL cholesterol), and weight gain.
